Algebra 2 & Trig.

Problem of the week- Due 11-21-2008

Directions: This is easy if you always do your assigned daily work! I will be collecting the 3 worksheets from last week on factoring: 5.4 #1, 5.4 #2, and 5.4 #3. I will then be grading selected problems on accuracy. 😊 You do not need to print out this sheet, unless you want to.
