

# "My Liver"

Reddish - Brown

Liver

→  
Brad

- Color liver  
reddish - brown.

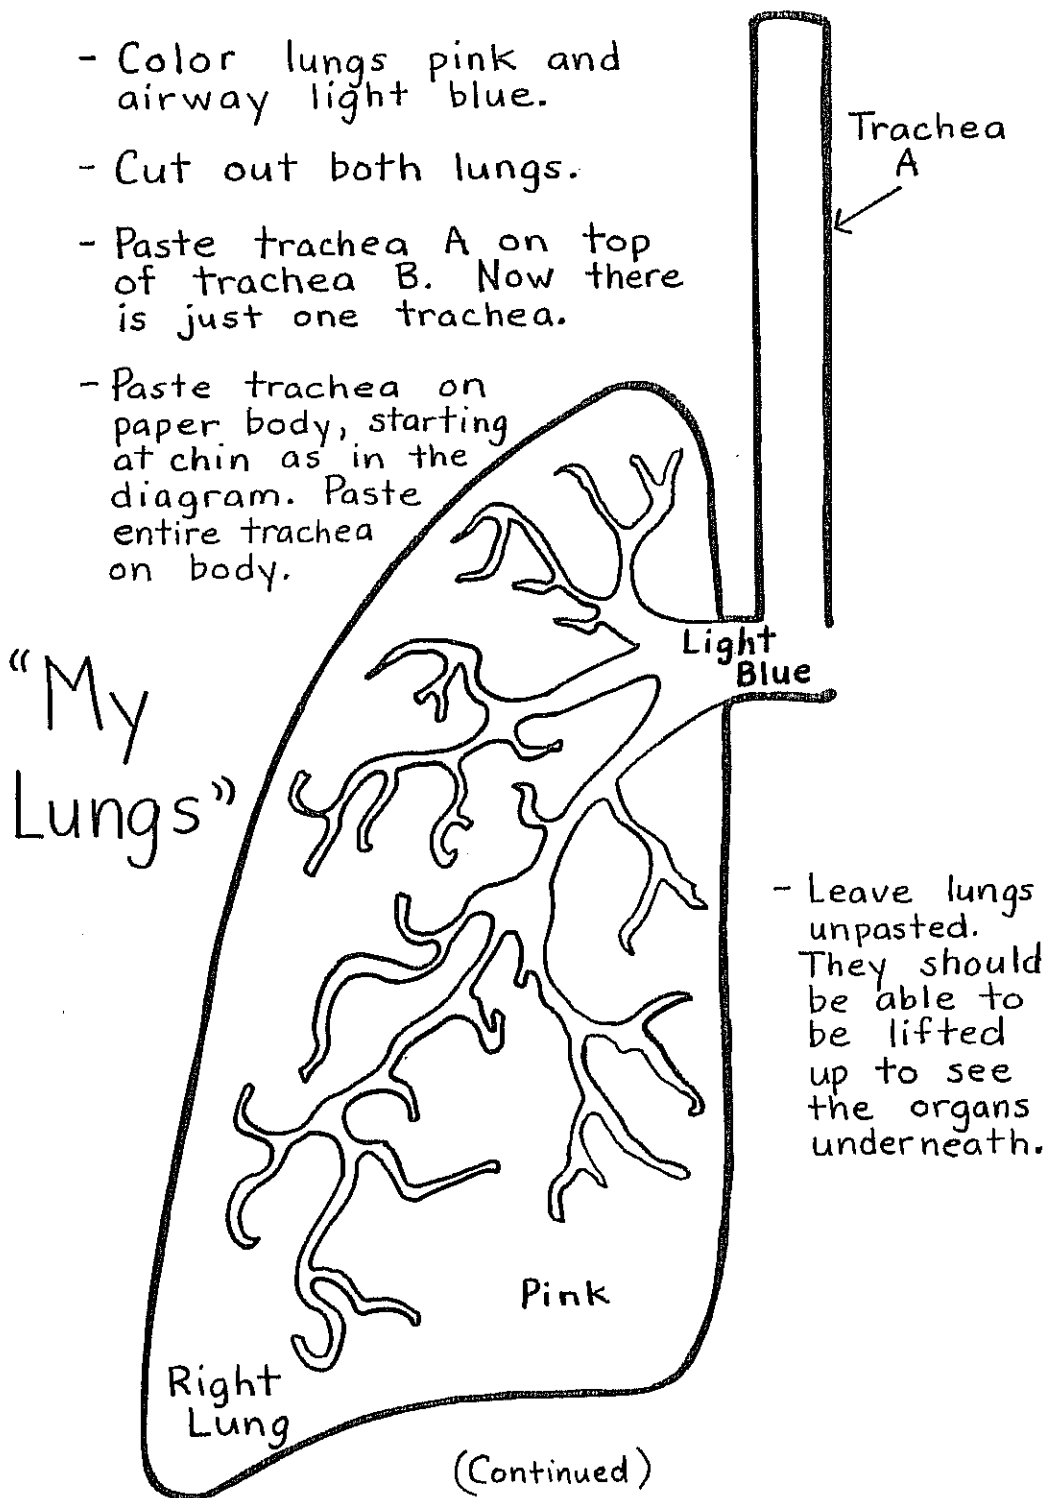

- Cut out.

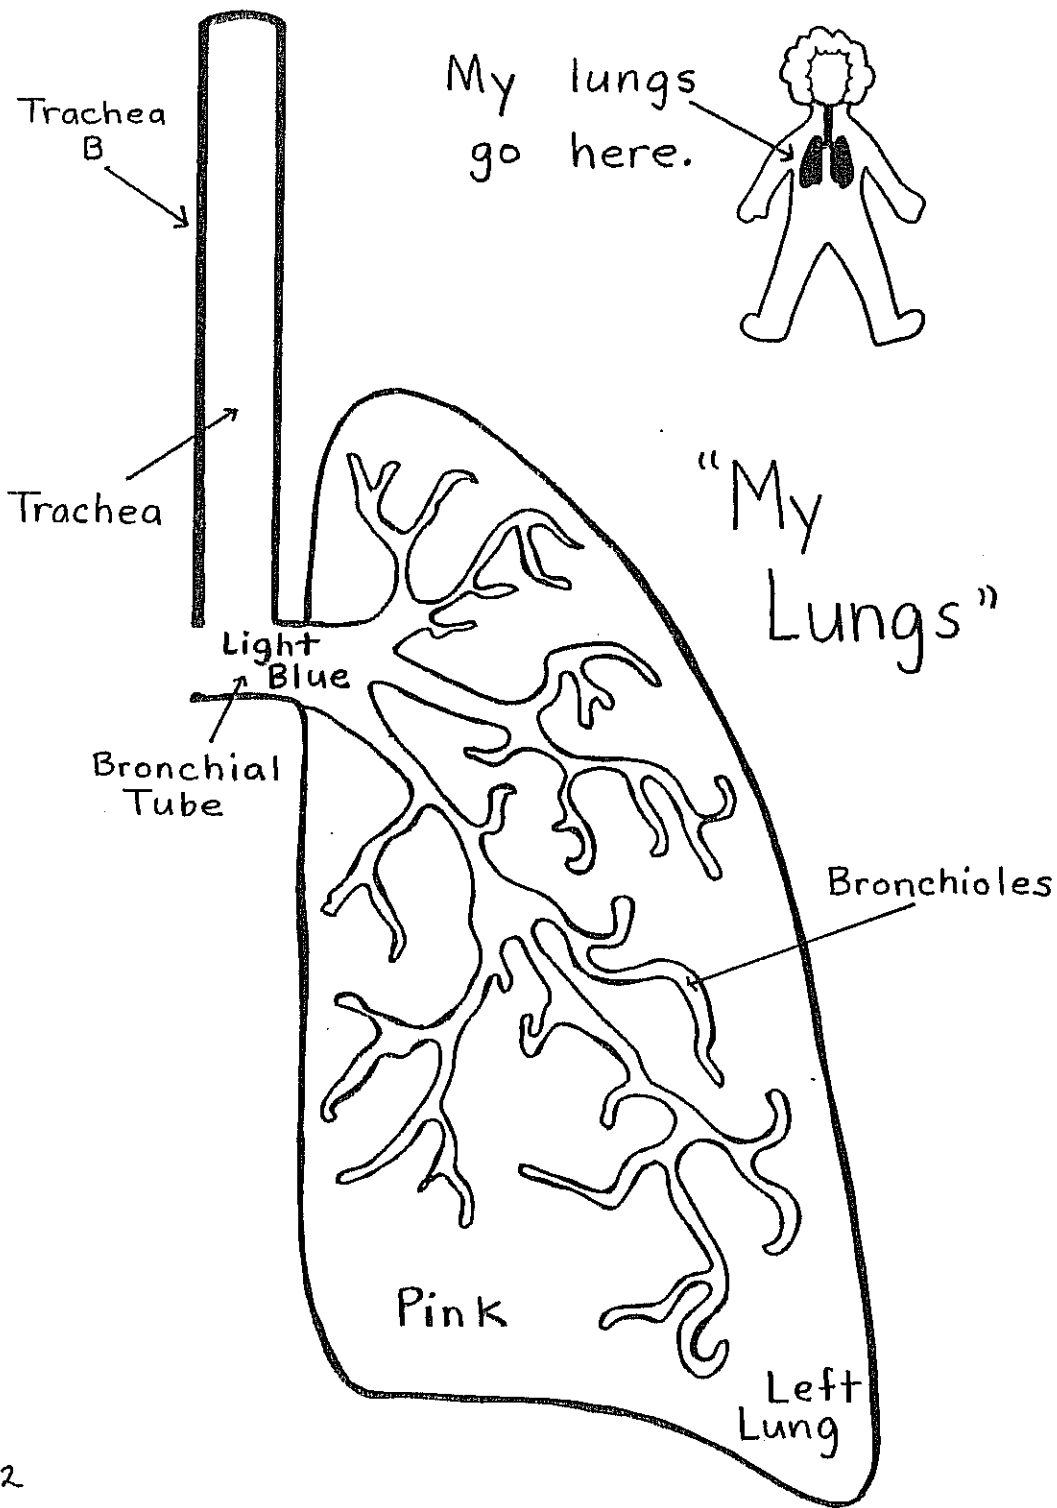

- Place liver on body as in  
diagram. (Liver will be under  
the lungs. It will be over  
the right kidney. It will  
partly cover the stomach,  
gall bladder, and pancreas.)

- Attach to body with brad  
at dot.

- Color lungs pink and airway light blue.
- Cut out both lungs.
- Paste trachea A on top of trachea B. Now there is just one trachea.
- Paste trachea on paper body, starting at chin as in the diagram. Paste entire trachea on body.

# "My Face"

Make eyes, eyebrows, nose, and mouth. Color eyes and eyebrows the color that yours are. Color the skin of the face the same color as yours. Don't forget to color your ears, too! Cut out face. Attach your face to paper body, pasting only from the nose to the chin. The top part of your

face should cover your brain. (Don't put paste on your brain!)

Don't paste here.

Paste here.

- Color your hair on the paper body.

- It is starting to look like you!
