

Lessons and Tutoring Resources

[Focused Learning Lessons](#) are designed for high school students, with lessons based on the standards, benchmarks, and grade-level expectations. Parents may use these lessons to assist students in learning content in [English language arts](#), [mathematics](#), and [science and social studies](#) for Louisiana's high stakes tests.

What All Students Should Know

[Grade-Level Expectations \(GLEs\) and Comprehensive Curriculum](#): Materials on this page contain information about the Grade-Level Expectations (GLEs), statements of what all students should know or be able to do by the end of each grade, PreK-12, in English language arts, mathematics, science, and social studies, and also Louisiana's Comprehensive Curriculum, which is based on the GLEs.

Louisiana Department of Education LEAP/GEE Help Center

<http://www.doe.state.la.us/lde/portals/LEAPGEEHelp.aspx>

This Help Center gives access to many programs that provide both students and parents with questions and online tutorials for each exam. Also, be sure to check out Newton's Classroom, which will help sharpen your math skills.

Questions and answers are available on this website, but if more help is needed, please call the Tutoring Hotline at 1-877-453-2721.

We are dedicated to helping you prepare and achieve!
