

adopt-a-school

Dear Business Owner,

Our school is participating in a free educational and environmental partnership fundraising program that is designed to help raise money for our school. Nationwide, schools like ours are actively collecting empty laser and inkjet cartridges from within their communities.

Just like aluminum cans, empty laser and inkjet cartridges have value. For each cartridge collected our school will earn money. It's simple, and it's good for the environment too, since most of the cartridges we collect can be recycled.

Programs like this have helped schools like ours buy computers, printers, software, team uniforms, sports equipment and even fund educational field trips.

Any place of business can participate through the Adopt-A-School program. Businesses pledge their empty laser and inkjet cartridges to schools and we receive cash credits for each cartridge collected.

Because this program is designed to be a community-wide effort, we would greatly appreciate your help and support in cartridge collection. Please save your empty laser and inkjet cartridges, return them to Recycle Rewards, and our school will receive the cash benefits. Simply register on the enclosed form and fax it to Recycle Rewards. You will receive "pizza style" boxes and prepaid ARS/UPS shipping labels to return your empties - *it's that easy!* Each time your adopted school is sent a check on your behalf, you both will receive a letter stating the amount and who made the donation.

Thank you for your help and support in this very worthwhile program.

If you would like additional information regarding this program please feel free to contact Recycle Rewards, at 1-888-336-9181.
