

Fire, Song 3, Show 2
Meas 1-8

MT 16 (*or move 16 to this chart)

Rotate 16

This time, your "zero point" or point of rotation is in the middle of your squad, so it should take your 16 steps to go all the way around. (I marked a few squads as examples)

(*there were two squads that did not end the last song in this chart, so go there during the MT 16)
