

Frog's Halloween Adventure

At Frog's house in Froggytown he's busy decorating his house and sewing a costume using his lucky thimble. Soon, it was time to go trick-or-treating. He went to the first house, instead of giving out candy, they were giving out key chains. Frog picked up a keychain with a buffalo on it. Little did he know, it was magical. As soon as he touched the key-chain, he appeared in another world. He didn't have anything in his pocket to call for help, except a clip to put on his bag of candy and a candle. It was dark, so he decided to use a candle as a light. Then, the light went out. He was walking around and stepped on something. Turns out, he found an old cell phone, so he called for help. Somehow, he called aliens and they came with their spaceship to pick up Frog. They brought him home and he wanted to count his candy, but forgot he didn't have candy to count! He had a very cool Halloween adventure.
