

## The Nightmare Express

Once there was a baby. She thought she saw an arm coming out of a tree. It scared her. She noticed it because of a chirping bird that flew to it. The arm was hanging in the tree by a seat belt. She thought she could get it down by pulling the seat belt, and it fell to the ground. It created a huge hole in the ground. When she looked on the hole a shell with an arm came out of it. The baby had never seen a shell with an arm before! A button came flying out of the sky and hit her in the head. She woke up and was very confused. That's when she realized that it was all just a dream.
