

Dear Parents/Guardians,

I would like to take this opportunity to welcome you and your student to AP Statistics. In this class we will be studying four conceptual themes: exploring data, sampling and experimentation, anticipating patterns, and statistical inference. We will follow the syllabus approved by the College Board. I try to update my website (www.teacherweb.com/SC/WoodruffHighSchool/Addison) regularly, and I encourage both you and your student to view it often. I have also posted the Syllabus and Long-Range Plans in order for students to keep track of the "big picture."

My goal for AP students is to prepare them for passing the AP Exam in May (and receiving college credit as a result); therefore, most work will be graded by AP standards. This class will be challenging, and your student may need outside help from time to time. Please note that I am willing to help before or after school as long as I know ahead of time and can arrange my schedule accordingly. Encourage your student to keep up with his/her assignments daily and not to procrastinate on long term assignments.

Please complete the information sheet attached so that I will have it on file if I need to contact you for any reason. If at any time during the year you have questions or concerns, you may call me at the school (476-7045 ext. 3649) between 2:15 p.m. and 3:15 p.m. or email me (kaddison@spartanburg4.org) at any time. I am looking forward to teaching your child and am sure that if we work together, it will be a successful year!

Sincerely,

Katherine Addison

AP Statistics Parent Information Sheet

Student Name: _____

Parent Name: _____

Parent's Phone number: _____

Parent's Email: _____

I would rather be contacted by phone / email / either . (Please circle one.)

If you prefer a call, what is the best time to reach you at the above number?
