# Addition/Subtraction Homework Packet

## October 7 - October 30

For each math unit your child will have a **"Homework Packet."** This homework packet is intended to provide additional practice of the skills we are working on in the classroom, while keeping you informed of the types of skills your child is learning. This homework packet is due back to me at the end of the unit, **October 30<sup>th</sup>**! Please keep the packet in a safe place at home or in your child's STAR Binder to work on throughout the unit. I will not have extra packets available if a packet is lost, as many will be torn straight from workbooks. I hope that you will find the homework packet format to be flexible to accommodate your family's schedule. Your child will receive a completion grade on the packet, so please make sure it is completed and returned by the due date.

Need extra enrichment during this unit? Explore some of these great websites for extra homework!
