Books available for check-out in the PRO Center...

The Everything Tween Book gives parents great insight and skills to surviving the preteen years. It's a wonderful resource if you have a child in between the ages of 8 & 13.

Young Children and Picture Books helps parents pick out quality literature and teaches parents how to get the most out of every book. It's a great guide for parents of preschool through first grade children.

Intervention is a practical, step-by-step guide for families whose loved ones struggle with a chemical dependence. It teaches how to help the right way!

Siblings of Children with Autism is a family guide to understanding how autism affects the family relationship. It offers advice on how to strengthen sibling relationships and how to respect the needs of all family members.

Other titles may be found in the PRO Center library. Stop by for a look!
