

Edge 1	Edge 2	X 2 Sides	Surface Area
24	12	2	576
24	18	2	864
12	18	2	432
			1872

Total Surface Area is **$1,872\text{cm}^2$**

If each box contains 100 one square cm tiles, we will need 19 boxes (1,900) tiles. Each box costs \$2.95.

So the total cost will be $19 \times 2.95 = \mathbf{\$56.05}$
