

Problem Solver

Tasha baby-sits for \$5 per hour.

Time Worked (h)	x	1	2	3	4
Amount Earned (\$)	y	5	10	15	20

Write an equation using variables to show this relationship.

Determine a relationship between the x- and y-values in the relation $\{(1,3), (2,6), (3,9), (4,12)\}$. Write an equation.
