

# Problem Solver

Look at the sequence in the table below.  
Which expression can be used to find the  
value of the term in the  $n$ th position?

Position	Value of Term
1	0.5
2	0.75
3	1.0
4	1.25
5	1.5
$n$	

a)  $\frac{n}{2}$

b)  $\frac{3n}{2}$

c)  $\frac{n+1}{4}$

d)  $\frac{3n}{4}$
