Ocean Lakes HS

Network Login Information

To begin taking a test, the students will first need to log onto the network using a generic login. This login limits the computer access to only the testing website. Below is the login information that students should use to log onto the network.

User Name: **HOLSNTTEST**
Password: **12345678**
Log on to: **GENERIC**

Achievement Series Information

Once a student has logged onto the network, the internet browser will automatically load to the Achievement Series website. After a student has selected "Begin Test", the student will be prompted to enter a Site ID, Test ID, and Student ID. Below you will find your school's Site ID and the Test ID(s) for the test(s) that will be given online during this testing session.

Testing Information

Students must complete the test within the testing window. Students are unable to test before or after the testing window.

If a student is unable to finish a test in one sitting, the student has an option to pause the test. Have the student click the "Stop" button in the upper right hand corner of the testing screen. Here the student will have the option to "Stop Test" which will save the student's responses and allow him/her to continue the test at a later time. Do not have the student "Turn In Test" as they will not be able to log back into the system and finish the test.
