

Summer 2009 Lab Schedule

Week 1

M	6-Jul	Endo/Exothermic
T	7-Jul	Freeze/Melt Water
W	8-Jul	Heat of Fusion
R	9-Jul	Boyle's Law
		Fractional Dist.
F	10-Jul	Press-Temp
		Evaporation

Week 2

M	13-Jul	Temp and Solubility
T	14-Jul	Electrolytes
W	15-Jul	Conductivity of Solutions
R	16-Jul	X
F	17-Jul	X

Week 3

M	20-Jul	X
T	21-Jul	Formula of an Ionic Compound
		Four Reaction Copper Cycle
W	22-Jul	Four Reaction Copper Cycle
R	23-Jul	Percent Water in a Hydrate
F	24-Jul	Classic Titration

By midnight on July 5, you must state whether you are going to attend on July 6.
 On July 6, you must provide to Dr. Alur the days that you will be present and absent.
 Makeups days will be available in August. Those dates will be announced in the future.

The work from your packet must be shown either on the day it is due or before the date that it is due.

The summer work comprises 10% of your first semester grade.
 More importantly, it will smooth the transition into AP Chemistry.

Remember that I will go to great lengths to make sure that you are ready.
 That means you should e-mail to ask for help if you are confused (preferred communication).
 Also, you can call me if you wish.

DO YOUR WORK AHEAD OF TIME SO YOU CAN ENJOY THE SUMMER!
